PRESS RELEASE

Air pollution source and emission inventories are being conducted throughout Lewis County. The Southwest Air Pollution Control Authority staff will be conducting surveys of commercial and industrial establishments throughout Lewis County during the coming weeks. The purpose of the surveys will be the completion of the emission inventory.

The Authority is required to obtain this emission data to fulfill its obligation to the State and Federal government. All commercial and industrial sources not previously surveyed will be contacted.

The general information needed will involve industrial process, operating hours, fuels, and methods of waste disposal.
