Phone: 696-6644  
Toll-Free 1-800-527-3305, Southwest Region

The fall period for burning of yard and garden trimmings by residents in Clark County Fire Districts #5, 6 and within the various city limits of Clark County, will begin October 15, 1988 and extend through sundown, December 15, 1988. No permit is required. If you live in the Camas Fire District you must call for daily open burning information.

In other areas of the County, small residential vegetation debris disposal fires generally can be burned year round, without a permit, by the following rules. Written burning permits are issued by the Department of Natural Resources (DNR) for land clearing fires larger than 10 feet across.

The approved burning is limited to natural vegetation from yard and garden in the form of leaves, clippings, prunings and other similar vegetation, and must be conducted according to fire safety requirements of the fire departments. Burning will be allowed every day from sunrise to sunset. No burning of household wastes or materials not grown on the property is allowed. Burning must be discontinued if it creates a fire hazard or nuisance conditions. Industrial, commercial, and municipal burning is not permitted in any area, except as provided in land clearing pursuits, by permit.

For burning regulations and written burning permit information, contact the Southwest Air Pollution Control Authority 574-3058, toll-free 1-800-633-0709, or the Department of Natural Resources, Southwest Region, at toll-free 1-800-527-3305.

The fall period for burning of yard and garden trimmings by residents in Clark County Fire Districts 2, 5, 6 and within the various city limits of Clark County, will begin October 15, 1988 and extend through sundown, December 15, 1988. No permit is required. If you live in the Gamas Fire District you must call for daily open burning information.

In other areas of the County, small residential vegetation debris disposal fires generally can be burned year round, without a permit, by the following rules. Written burning permits are issued by the Department of Natural Resources (DNR) for land clearing fires larger than 10 feet across.

The approved burning is limited to natural vegetation from yard and garden in the form of leaves, clippings, prunings and other similar vegetation, and must be conducted according to fire safety requirements of the fire departments. Burning will be allowed every day from sunrise to sunset. No burning of household wastes or materials not grown on the property is allowed. Burning must be discontinued if it creates a fire hazard or nuisance conditions. Industrial, commercial, and municipal burning is not permitted in any area, except as provided in land clearing ordinances, by permit.

For burning regulations and written burning permit information, contact the Southwest Air Pollution Control Authority 574-3052, toll-free 1-800-533-0709, or the Department of Natural Resources, 896-6644, toll-free 1-800-527-3305.
